## **Budget Fails Families**

FamilyVoice Australia spokesman David d’Lima says the federal budget will fail families and is fiscally irresponsible.

“Labor’s fiscally irresponsible big spending and big taxing budget lets down families badly”, FamilyVoice spokesman David d’Lima said.

“The Albanese government should urgently cut spending and taxes to ease cost of living, instead of robbing Peter to pay Peter.

“The budget does nothing to cut wasteful government expenses that roll over each year.

“The huge increase in government debt over the coming years is alarming as it will severely burden families with interest repayments for years to come.”
